Our story

How we started

Forsan World stands for innovation and excellence. Our story began with a dream fueled by passion and hard work that turned our dream into a reality, which includes a set of well-established restaurant concepts and premium meat shops that are well known across the kingdom of Saudi Arabia.

It all started with Forsan Groceria, which has a long history that extends to more than 40 years. Our story began in 1979 with a specialization in providing the best and finest quality meat, from which Forsan Groceria earned a great reputation and confidence from consumers in this field. With the continuous developments of both consumers and market needs over the years, Forsan Groceria has also coped with these developments by evolving over the years to diversify its product range to include a wide variety of selective gourmet groceries and other premium consumer and luxury-baked goods, carefully selected to adhere to the best quality standards.

In addition, Forsan Groceria has implemented an ambitious expansion plan with its branches aimed to reach the largest customer base within Riyadh, and more recently stretched its boundaries beyond Riyadh by opening its most recent branch in Al-Khobar in the Eastern Province.

Moreover, with the vast developments and diversity that recently took place in the restaurants and food industry across the kingdom, Forsan Groceria has also coped with such developments by diversifying its services from solely being focused on serving individual customers to launching a new sector that is focused on providing foodservices to promising restaurants and rising food businesses.

Stemming from the vision of the second generation of the family-owned business to build on the heritage and leadership gained over the past 40 years primarily in the meat and foodservice business, they decided to establish and develop different restaurant chains concepts that would cater to different tastes and consumer needs while maintaining quality and excellence as their focused common goal. This vision has evolved relatively quickly over the past 10 years to become what is known now as "**Forsan World**", which includes "**Grill it**", which is famous for its unique sandwiches and burgers menu, "**Forsan Kitchen**", the oriental grill concept that is well known as "The House of Grill Experts", and "**Chicks Lab**", a differentiated fried chicken concept, in addition to several other concepts and projects that will be launched soon.

Our Goal

We aim, through **Forsan World**, our expertise and leadership that goes beyond 40 years in the foodservice business, to provide the best possible experience and fruitful cooperation in this field. Our foodservice capabilities guarantee to cover all the needs that companies and institutions will require in the foodservice business in a reliable and professional manner.

Hence, if you own or manage a company or an institution, and aim to provide the best foodservice and choices to your team, **Forsan World** is your number one choice, as it will cater for all the foodservice needs you have and offer a wide variety of meals and menu choices that satisfy all tastes, all from one place...**Forsan World!**
